

Welcome to Northminster Learning Center's Summer Camp!!

Northminster Learning Center is once again excited to offer summer camp for 2010. Children who have completed kindergarten through 5th grade are welcome to come for a summer of fun experiences, engaging activities, and great friendships! Camp at Northminster is a busy one filled with games, art activities, field trips, swimming and we even manage to learn a lot as we investigate a variety of topics!

One great benefit of our summer camp: All field trip and swimming fees are included in the weekly tuition! Families can rest assured that everything is covered by one tuition payment.

One of the many unique features of Northminster is our commitment to offering meaningful, quality experiences for all of our children. Our staff of degreed teachers and education majors from Bradley University plan and develop activities that are appropriate for each age group and keep children involved.

As you read through the registration materials feel free to call or e-mail any questions you may have about the program. Information about weekly tuition and the registration fee can be found in the summer camp handbook. You are welcome to set up a tour and bring your child by for a visit before the start of our summer program.

Thank you for your interest in our program. We would be blessed to have your family involved in our program. Please feel free to call with any questions you may have.
